Advice on tap

When it comes to a bathroom or kitchen renovation, HB Home Improvement has the products and service to suit all budgets.

HB Home Improvement is a licensed builder with more than 25 years' experience but the company also sells and supplies building materials to the public and tradespeople.

Owner Ahmad Diab says the combined building and retail service enables the company to advise customers on a whole range of issues that may arise on individual jobs.

"We can also handle the whole renovation or building job from start to finish if the customer prefers and we offer an obligation-free measure and quote," he says.

They have created a one-stop-shop for the renovator or builder

HB Home Improvement stocks a huge range of imported and local tiles and also carries a large range of major brands for bathrooms and kitchens, including Caroma, Dorf, Fowler, Clark, and Carl Ray.

Mr Diab says they have created a one-stop-shop for the home renovator or builder.

Huey's touch

Celebrity chef Iain Huey Hewitson knows how important it is to have a kitchen that looks great but, above all, is cleverly designed and functional.

Now the face of custom-made kitchen company, Kitcheners Kitchens, he says he is proud to represent a brand that creates kitchens people will enjoy for years to come.

"They create custom-made kitchens that make life easy when whipping up those special meals," he says.

"Their knowledgeable staff take the time to get to know customers and find out what they really need.

"Kitcheners will then advise on a stylish, quality and cost-effective design and

finishes . . . that will work best for the space."

Kitcheners Kitchens director Michael Kitchener – a Hewitson fan – says he is very excited about the business relationship.

"After talking to Huey, I realised that he also values quality and style which are the key values we focus on," he says.

"He has had more than 40 years' experience working in . . . kitchens so we know if Huey endorses a product it is one the public can trust."
