

Built-in double ovens and steamer within a striking feature wall

Butler's pantry

Granite benchtop

# MADE TO MEASURE

This kitchen has many features that are truly special, from both a functional and an aesthetic perspective.

STORY CLAIRE BELLAMY PHOTOGRAPHY KITCHENERS KITCHENS

A stunning ceramic mosaic feature above the sink

In this distinctive design, Kitcheners Kitchens delivered on the owner's request for an expansive space – including both a large cooking zone and a preparation area. And they responded to her entreaty for plenty of bench and storage space by lining both sides of the kitchen with an abundance of cupboards.

They included a number of stylish touches she sought as well, one being the mosaic feature above the stainless-steel benchtop.

Not only is the kitchen the fresh new centrepiece of the home, it's also a place this family of keen cooks enjoys spending time in – and showing off to their friends.

Its greatest achievement is the successful integration of the latest technology – Blum's soft-close drawers for instance – with some striking design touches, such as the colourful benchtops and splashbacks. Top-of-the-line appliances, including a Miele elevated dishwasher, contribute to its ultra-modern feel.

## KITCHEN ESSENTIALS

- DESIGNER** Kitcheners Kitchens, phone 1800 826 144
