- **Taps** Abey mixer

To be able to catch a glimpse of the harbour is a premium perk in Sydney real estate and yet this apartment previously squandered its opportunity to do so. Unbelievably, the former kitchen was so ill fitted to the space that the refrigerator blocked the unit's prized views of the water. It's little wonder that its owners decided to renovate to bring the outdated kitchen into the 21st century and show off the harbour outlook.

The team at Kitcheners® Kitchens signed onto the project and instantly set about reworking the space to transform it into a light and airy room to reflect its beachside location. To achieve this, the new kitchen was integrated with the living area to reveal extra space and create an area made for entertaining.

And, of course, Kitcheners® Kitchens ensured the view is now the centre of attention. In fact, the room's harbour views can now be enjoyed from two vantage points, as the water can be seen out of the window and as in the reflection on the Starfire glass splashback.

Thanks to Kitcheners® Kitchens, this apartment now takes full advantage of its peerless position on Sydney's harbour edge.

The kitchen was designed and built by

BENCH STOOLS AND A WINE RACK ARE EASY AND AFFORDABLE ADDITIONS THAT HELP SET AN ATMOSPHERE PERFECT FOR ENTERTAINING.

Harbour haven

A kitchen that makes full use of the views

IS YOUR KITCHEN DESIGNER QUALIFIED TO DESIGN KITCHENS?

STORY BY MICHAEL PENNY, PHOTOGRAPHY BY KITCHENERS KITCHENS

What happens if your kitchen company assigns you an unqualified kitchen designer who creates a kitchen that looks okay but is functionally poor? One that doesn't utilize the space to its fullest potential, nor adequately balance the preparation and cooking zones.

That's where a qualified specialist designer, like one from Kitcheners® will help. Every designer is a KBDi (Kitchen and Bathroom Designers Institute of Australia) member, able to custom-design you a kitchen that precisely suits your lifestyle. Furthermore, company founder, Michael Kitchener, holds positions on industry committees including KBDi and HIA's Kitchen and Bathrooms committee. Thus, he consequently demands the highest standards from his design team.

Each specialist designer will examine any physical or lifestyle restrictions you face and ensure the design accommodates your specific needs. The designer will also be aware of the latest global trends ensuring your final kitchen has impeccable style and aesthetic charm to make cooking and entertaining equally delightful.

So if you want a new kitchen, talk to a qualified designer at Kitcheners on 1800 826 144 or visit kitcheners.com.au
